

Enhance Your Pool Access Today!

A Commitment to Quality and Customer Service

Rehab Systems, LLC is the sole manufacturer of the AquaTrek Ladders, Steps, Ramps and Wheel Chairs for aquatic access. In business since 1990, Rehab Systems has over a decade in the pool access industry and continues constant product improvements in quality and manufacturing process.

“Are you designing parts for battle tanks now? Wow! I am thoroughly convinced that Rehab Systems is moving in the right direction with their product quality,” said Chris Georgantas of the Delta Health Club. *“I am willing to act as reference without a doubt.”*

A leader in the pool access industry, Rehab Systems has dozens of product dealers nationwide. Each AquaTrek Ladder, Step or Ramp is custom designed for each facility and is handcrafted using the finest and strongest materials available.

“I love the AquaTrek Ladder,” said Brett Maruszack of AquaPool Co. *“It’s a great product that’s super sturdy. Our customer is really happy and impressed with it. To heck with those steel ladders and ramps. I’m going to sell yours!”*

The products all come with a one-year warranty and deck mounting customizations are included in the price. We are proud to ensure that our handcrafted products are the best fit for each individual facility.

“Everyone loves the AquaTrek Step,” said Jeff Putnam of Indian Boundary YMCA. *“It’s really strong and works great and can be left in all day. Over a hundred people a day use it. You guys make a great product! Keep up the good work.”*

The question each facility manager has to ask is who they are trying to serve. Rehab Systems asked that same question and resolved to provide a practical solution for each facility. In a therapy environment, like rehabilitation, a ladder or stairs offers facilities that practical solution for getting people into the pool comfortably.

“It (an AQ-5600 AquaTrek Ladder) permits people to get into our pool WITHOUT using the lift chair. This is a confidence builder to people who are otherwise losing mobility,” said Jamie Endresu of the Mon Valley YMCA.

“It’s a God-send,” said Pat Fosella of Cranford Pool and Fitness. *“Our clients find it a tool to make entry and exit to the pool much easier. Dealing with Katrina Tinman, Sales & Marketing Director was a great experience. She was honest, patient and willing to help in any way without being overbearing. Thanks!”*

Each Ladder, Step or Ramp offers strong, stable handrails with a relatively low riser height (distance between steps) allowing forward entry and exit of the pool. In a senior community where you need to deal with arthritic joints, stability, low riser heights and forward walking are paramount for user comfort. A lift system is good, but everyone can and does use our products with dignity and ease.

“We love them (an AQ-7000 Step and AQ-350-WC Wheel Chair)! We are having a state-wide aquatics event for Special Olympics because of these products. Thank you,” said Paula Ann Sorenson of the Iowa Lakes Community College.

“We love your unit very much. Everyone uses it, even people who thought they’d never use it because it was for handicapped use only. It’s just so safe and easy. It’s probably the best thing we’ve ever done for our pool. If there is ever anything we can do or say for you, it would be our pleasure,” said Mike Pierce of Point East Condominium in Ohio. *“Your service and product are absolutely excellent. We’d be happy to talk to people and provide product recommendations.”*

So don’t wait any longer. Purchase your AquaTrek Ladder, Step, Ramp or Wheel Chair for aquatic access today. An aging population will only increase the need for aquatic access.

AquaTrek Ladder

- Durable and Lightweight
- Non-Slip Safety Treads on Each Step
- Portable and Removable
- Built to Specifications of Your Pool
- Full One-Year Warranty on All Parts
- Available in 4, 5 or 6 Step Models

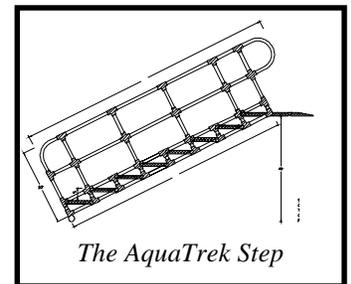

The AquaTrek Ladder lets you walk into your pool. People of all ages can enter and exit your pool with ease. Wide treads and handrails provide the needed stability. The AquaTrek Ladder is easily removed for automatic pool cleaners, retractable pool covers and solar blankets.

AquaTrek Ladder and Step models vary depending on pool depth and desired riser height.

AquaTrek Step/AquaTrek Ramp

- Durable, Noncorrosive Construction
- Non-Slip Safety Treads on Each Step
- Lightweight and Portable
- Built on Wheels for Easy Transporting
- Walk Forward for Enter & Exit
- Step Available in 6, 7 or 8 Step Models

Have you ever wanted your own removable stairway to make getting in and out of your swimming pool easier? Well, with the new AquaTrek Step or AquaTrek Ramp, you can do just that! The AquaTrek Step will provide your swimmers with safe, easy and comfortable access to your pool. In addition, both the ramp and step can be removed by your staff in minutes and rolled away on the wheels built right in the units.

All ladder, step and ramp products are customized to your pool deck and gutter system.

AquaTrek Wheel Chair

- Full One-Year Warranty
- 7 and 24 Inch Mag Wheels
- Totally Submersible
- Footrest & Swing Arm Standard
- Safe & Comfortable
- Stainless Steel Axles & Fasteners
- New Stainless Steel Wheel Rims Standard

The AquaTrek Wheel Chair is the ultimate way to give your disabled pool users assistance around and into the pool.
